Our Program: Philanthropic, Educational and Cultural

Each chapter of National Charity League, Inc. encompasses a three-prong approach and includes philanthropic, educational and cultural components.

Chapters consider the local community's needs and select philanthropies to support. Support is provided through the donation of time and organizational skills and may include fundraising.

Educational activities are designed to teach daughters to be self-assured young women in today's society, to demonstrate good manners, to respect others and to develop leadership skills.

Cultural events help members develop community awareness and cultural sensitivity.
